Literary Universes
Presenter: Karen Wikander, Ph.D., instructor of English, TMCC
After the incredible financial success of the Marvel Cinematic Universe, the concept of the shared universe has gone mainstream. In fact, the term “shared universe” primarily is used in relation to comic books. However, this ignores a literary history that offered a similar conceit almost a century earlier. Reading audiences in the 19th century experienced a powerful, formative world with Émile Zola’s Rougon-Macquart series. This then set the stage for other authors around the globe. In this talk, we’ll explore why it is that a literary shared universe offers up a frisson of excitement and connection that goes beyond the traditional novel. We’ll examine how these literary universes engage their reader and bring them in, and why we build deeper emotional relationships to character and place.

Why Are We Facing a Climate Emergency and What Can We Do About It?
Presenter: Stephen Jenkins, Ph.D., professor emeritus of biology, UNR
We’ve known that burning fossil fuels adds carbon dioxide to the atmosphere, increasing global temperature, for more than 100 years. The United States and other countries considered restricting the use of fossil fuels in the 1980s, and the Intergovernmental Panel on Climate Change has been documenting human impacts on climate change since 1988. But it was only last year that the European Union and other countries, though not the United States, declared a climate emergency, as we’ve begun to see more and more obvious and dramatic evidence of climate change such as temperatures greater than 100 degrees Fahrenheit in Siberia this spring. Learn about the positive feedbacks that may produce unprecedented and irreversible changes in climate and potential tipping points in our politics and culture that provide a sliver of hope that we can avoid such changes.

This can be seen from Jonah’s (or Ahab’s) whale to Shelley’s *Frankenstein*, *The Walking Dead* zombies and Pennywise of Derry, Maine. So how can *Jekyll and Hyde* fit this tradition and provide with us an even clearer reflection of ourselves?
